Details O	uestion:	
W	/hat should I do if I am unable to locate an Instructor Companion site for our college textbooks?	
Aı	nswer:	
BC iss	is not uncommon for older and out of print titles to have their companion sites hidden by the product team. This would cause CS link to be removed from the title landing page on wiley.com. Sr. Support is able to look these links up. If you encounter an sue where the BCS appears to be missing for a college textbook, then ask on Teams if someone can look it up or escalate to Sr upport.
